DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed because the closest prior art, Osann, JR. (US 2003/0153364 A1) and Seme (US 2003/0125927 A1), either singularly or in combination, fail to anticipate or render obvious that a signal converting capability and network-based wireless telephone communication device allowed to be linked between two different communication systems, as argued by applicants.

Claims 2-11 depend on claim 1. Therefore, they are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hayes-Roth (US 2002/0054072 A1) teaches system, method, and device for an interactive messenger.

Charney et al. (US 2004/0132485 A1) teach cordless telephone system with wireless expansion peripherals.
